

Land Records History: User Guide

This screen is used to search for land records stored in the Department of Land Management database. In this example we will show how to search for data based upon a land parcel.

Step 1 In our example we will search a description of "M05 L5072-1-1%", the % (wildcard) symbol is used to tell the system to search for anything that starts with "M05 L5072-1-1".

Step 2 will be to press the  button

Land Records History Search

Doc No:

Mun: Tract: Block: Lot:

Grantor: Grantee:

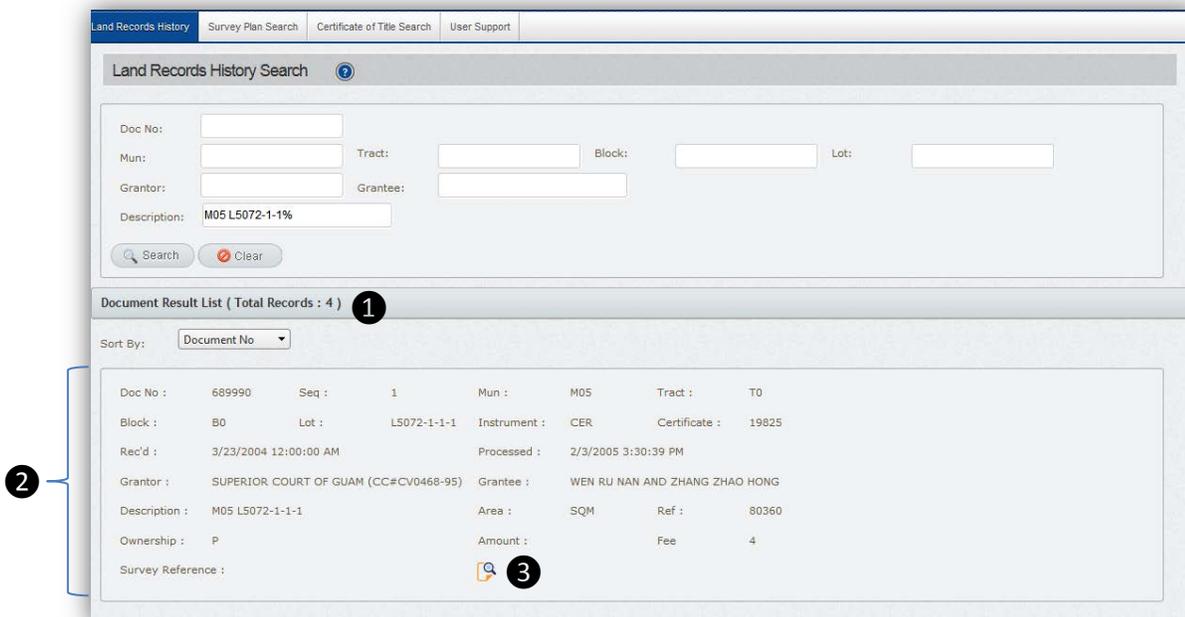

Description: M05 L5072-1-1%

Document Result List

Sort By:

The system will search and display the results which are displayed below:
